Masked Burglar Dead In Pistol Fight

Adam Prochowski, the original chameleon burglar, was shot to death by a private detective when he sought to enter the home of Henry A. Blair, president of the Chicago Surface line, to rifle his art collection. Prochowski, graduate of Warsaw University, Poland; linguist, athlete and grand opera patron, was a genius who went wrong. He was sentenced to the Illinois Penitentiary in 1917 and two months ago escaped. When killed he carried a pistol, though it had long been his boast he was so good he relied on nerve and skill to save him in an emergency.

TAKING OF FINGER PRINTS SIMPLIFIED BY LATEST SYSTEM

Life Term Prisoner At San Quentin Is Inventor Of New Device

SAN QUENTIN, Calif., May 25.—From behind the walls of San Quentin Prison has come a solution of a problem which has baffled experts the world over since the first introduction of the fingerprint system of identification. It is a single impression system—a simplified method which would make it possible to identify each one of the earth's millions of inhabitants without leaving a shadow of a doubt. The inventor is Walter S. Crosskey, an Englishman, sentenced to life imprisonment for the slaying of a San Francisco saloon keeper under the name of J. J. Walters. Crosskey did not allow imprisonment to embitter him. Instead he set about improving the condition about him. He became the first instructor of a class in psychology in the prison. Desire for mental stimulation caused him to request assignment to the prison Bortillon room. Here he began a study of identification and learned thru the journal of the Royal Society that experts were seeking to devise a system of single fingerprint classification. He spent fifteen months of intensive study on the subject and finally perfected his system, which has met with the approval of the experts to whom it has been submitted. Crosskey is now securing patents on his system in all countries and has completed a book describing it. Crosskey says his system will revolutionize the science, and its adoption by banks, business houses, insurance companies, railroads and other institutions doing a business where personal identification is necessary, including passports and election bureaus, will minimize such frauds as check forgeries, identification by the like. Positive identification by telegraph will likewise be made possible, he asserts, and, overshadowing all these advantages, it will afford a basis for character reading when a child is young, enabling the proper cultivation of traits, characteristics and gifts and the shaping of careers. As proof of the simplicity of his system, Crosskey claims that 5,000 records could be filed in a cabinet a yard square by six feet high.

CAKE DAY BRINGS LARGE ASSEMBLAGE TO COOKING SCHOOL

Rain Falls To Seriously Affect Attendance On Third Day Of Series

TOMORROW IS CLOSE

Review Of Lessons Gone Over Will Conclude The Four Days' Meetings

Despite weather that threatened rain, most of the seats in the lower floor of the Sixth-st theatre were occupied yesterday and today during the sessions of the Tribune's free cooking school. The popularity of the school was shown in the fact that each session brot greater attendance than the preceding one. Wednesday the following women received free baskets of groceries: Mrs. C. B. Wilhelm, 1434 East Walnut-st; Mrs. J. E. Mossholder, 1155 East Main-st; Mrs. Adolph Zill, 631 Pine-st; Mrs. George McNab, 704 South Lawn-av; and Mrs. Roy McClure, Coshocton route 3. Miss Grace Cline of 1124 Walnut-st and Mrs. Homer Daniels, 307 North Eighth-st, received free sacks of flour. The cooking experts were assisted yesterday afternoon by the following girls of the Sycamore school, who served the food: the teachers prepared: Mary Miller, Genevieve Richards, Nelle Thrapp, Mary M. Lockwood, Maxine Dennis, Helen Wilson, Rosemary Wise, Rachel Wells and Gertrude Watson. Donald Denman and James Clark, Boy Scouts helped also. The Tribune takes this opportunity to thank the girls and boys for their aid. Today's session covered lessons in making cakes and icings. Sift together all dry ingredients. Mix Maza, water and flavoring, add to dry ingredients. Drop egg yolks and mix thoroughly. Beat whites of eggs stiff and cut and fold in. Makes two layers. Lady Baltimore Cake. 2 1/2 cups of sifted flour; 3 level teaspoons baking powder; 1 1/2 cups sugar; 1 1/2 cup Maza; 1 cup water; 1 teaspoon lemon extract; 1 1/2 teaspoon vanilla extract; 5 egg whites. Sift all dry ingredients. Add Maza to water and extracts and mix well into dry ingredients. Beat egg whites stiff and cut and fold into mixture. Will make two layers. Filling for Lady Baltimore Cake. 1 1/2 cup of water; 1 cup of sugar; 1 tablespoon Maza; 1 tablespoon White Karo; 1 egg white; 1 tablespoon of marshmallow. GERMANY STANDS BETTER CHANCE OF OBTAINING LOAN FROM BANKS THAN FRANCE; MORGAN TO DECIDE

STILLINGER WEIGHS IN AS CANDIDATE FOR LEGISLATURE

Is First Democrat To Announce Candidacy; Narragon May Run

George M. Stillinger, 340 Chestnut-st, announced Thursday that he would be a candidate for the Democratic nomination as state representative from this county. Clay Miller holds that office at the present time. Stillinger was county treasurer from 1909 to 1913. Previous to 1909 he resided in Tiverton-pt, but upon his election to the office of county treasurer, he moved to Coshocton, where he has resided since. For the past several years he has been engaged in the grocery business with his son. He was a candidate for the nomination as representative six years ago. So far, he is the only man to announce his candidacy for the office. The name of W. T. Narragon of West Lafayette has been mentioned in connection with the Democratic nomination, but no definite announcement has been made. It is presumed that Clay Miller will be a candidate for second term on the Republican ticket. Rumor has it that he will be opposed in the primaries by Henry S. B. Miller of Bedford-pt. Miller recently has been expending time and effort in a fight to overthrow the school teachers' pension tax. His activities in this line have led to the belief that he will be a candidate for the nomination as representative. Bankers May Demand That France Pay Debt, As She Pressed German Payment. PARIS, May 25.—France has decided to postpone indefinitely the sending of her official treasury commission to the United States to negotiate the funding of the French debt of more than \$3,000,000,000. This was learned officially today coincidentally with the meeting of the international bankers here to discuss additional loans to France and also to Germany. J. P. Morgan is the outstanding figure in the meeting of the bankers, which began at eleven o'clock in the Hotel Astoria with M. DeLacrix, of Belgium, presiding. J. P. Morgan has become the most conspicuous man in the public eye since his arrival here for the conference of international bankers. The press is very unanimous in saying that if Morgan says "Yes" the bankers will agree to a loan for Germany. Also it is up to Morgan to say how much money the Germans shall get. Now that the American government has declined to deal with Europe, Morgan as the biggest American banker, has become the chief representative of America in Europe. It is believed in many quarters that the bankers will agree to a loan on condition that Germany meets certain requirements. Herr Hermes, German minister of finance, is still in Paris to give any information the bankers require. He came here originally to supply the reparations committee with data. Some of the French politicians are worried for fear that Mr. Morgan will prescribe for France the same medicine that France prescribed for Germany—namely, the balancing of the 1923 budget. Under the present budget, France, owing to the expansion of her navy and army, will spend four billion francs more than she will receive in revenues during the forthcoming fiscal year. It is pointed out in political circles that if France hopes to get another loan in America she must take steps either to reduce her expenditures or increase her revenues. Woman Killed By Bullets Intended For Jap General. SAN FRANCISCO, Calif., May 25.—Mrs. Frederick Shedd, of Columbus, Ohio, owes her life to the death of her friend, Mrs. W. K. Snyder, of Brazil, Indiana, she revealed today upon arriving here from an Oriental tour. Mrs. Snyder was killed by the bullets of a Korean assassin firing at General Tanaka as she disembarked from the liner Pine Tree State at Shanghai. Mrs. Shedd was walking down the gangplank beside Mrs. Snyder and only the interposition of the latter's body saved her from the bullets, three of which pierced the body of Mrs. Snyder, killing her instantly. General Tanaka was unharmed. A bomb was first thrown but sailors kicked it off the dock into the water before it exploded. The killing of Mrs. Snyder took place March 27.

MARKET ON UPTURN

Tariff Bill Is Stimulus To Buying, Says President Of Association

L. B. Palmer of Pataskala, president of the Ohio Sheep & Wool Growers Association, and head of the sheep division of the State Agricultural Board, arrived in Coshocton Wednesday afternoon and met Wednesday evening in the offices of the Coshocton Farm Bureau with a committee from the Coshocton Sheep & Wool Growers Association. Thursday Mr. Palmer accompanied by County Agent G. C. Musgrove, gave a demonstration in wool grading at the R. L. McKee home at Winding Fork. And this evening he will give a similar demonstration in Keene, Friday. President Palmer goes to Athens-co on the same mission and is covering practically all the wool producing counties in the state in the extension of the same work. It is the claim of the leaders in the Ohio wool growers' movement, that sheep men are just coming into their own. They propose in their platform, among other things, first, to sell wool on its merit; to reduce the profits of speculators in wool; to stabilize the wool market; to standardize and advertise the superior merits of Ohio wools and to recompense the producer for superior methods of breeding, management and preparation of wool for the manufacturer. In conversation Thursday with a reporter for The Tribune & Times-Age, President Palmer was enthusiastic about the outlook for Ohio sheep men. "We have been organized for four years," said Mr. Palmer, "and the results have more than justified our expectations as the beginning. We believe our organization is founded on correct principles and each year we are getting greater and more loyal support from Ohio farmers. "The emergency tariff bill gave an

SHORTHORN SALE ON JUNE 2 TO BE A BIG EVENT FOR BREEDERS

Arrangements were perfected for the Shorthorn cattle sale to be held at the county fair grounds, Friday, June 2, at a meeting of the Shorthorn Breeder's Association, held in the assembly room of the Farmer's Exchange Wednesday afternoon. It will be similar to the sale two years ago when 3,000 spectators witnessed the auctioneering of 75 animals in one hour's time, at an average of \$400 a head. There will be 35 animals offered for sale. At 10 o'clock Friday morning the animals will be placed on exhibition. The females will be placed in four classes. All will be judged for fine points by David M. Pyffe, superintendent of the Live Stock department of the Ohio State University and Kenneth C. Ikeler, member of the firm of Houston & Ikeler, of Granville. The sale of the cattle will open at one o'clock. It will be held on the race track in front of the grand stand. Scott Milne of Mount Pleasant, Iowa, Noah Barrett, L. J. Foster, and C. O. Mercer will act as auctioneers.

KIWANISANS LEAVE IN FORCE FOR THE DISTRICT MEETING

More than two-thirds of the membership of the Coshocton Kiwanis club left in automobiles Thursday morning, for Zanesville, to attend the inter-city meeting of the South Eastern Ohio district of Kiwanians. The local club will make an effort to land the 1923 inter-city meet for Coshocton. Kiwanians from Coshocton will be welcomed by Dr. S. L. McCullough, of Zanesville. Individual welcomes will be tendered clubs from Newark, Middleport, Pomeroy, Marietta, Logan, Lancaster, Columbus, Cambridge and Athens. The program will open with a sightseeing tour of Zanesville at a four o'clock. At 6:50 all delegates to the meet will be lined up according to towns, and the procession will march thru the main streets of the city, stopping at the banquet hall at seven o'clock. At the meeting of the Kiwanians here Wednesday, they were addressed by Judge S. H. Nicholas. Nicholas commended the club on its child welfare work, as typified by the distribution of milk to undernourished school children for the past several weeks. He said it was thrilling to realize that there were men in the city who would take time from their business to do a little act of kindness and charity. With the closing of the public schools, the distribution of milk by the Kiwanians ended. A report of the work showed that more than \$200 had been spent on the work by the club. This money paid for half pint bottles of milk, which were distributed among the children. David Jackson entertained the club with several vocal solos. He was accompanied by Miss Hulda Bouten-miller, pianist.

EXPRESS ATTITUDE TOWARD VETERANS BY BUYING POPPY

Have you forgotten the days following April 6, 1917, when United States declared war upon Germany? The young men of the town were leaving their positions in business life, dropping their educations, and giving up their home life to march under the country's flag. Have you forgotten when the first of those boys was brot back home in the long flag draped casket? And then later they trickled back from the front lines, maimed and wrecked for life. Some came back sound of mind and body. They formed the American Legion. Thru their efforts legislation has been and is being passed to care for the families of the boys that were killed, and to help the ones that were injured. They ask you if you have forgotten the days of the war. If you haven't, you will wear an American Legion poppy Memorial Day, they believe. The local legion members have obtained a supply of pretty red poppies. Beginning Saturday the poppies will be placed on sale by members of the American Legion Woman's Auxiliary. They will be sold Monday and Tuesday also. No price is placed on the flowers. Any amount of money will be gratefully received. The money will be placed in the relief fund of Ralph Courtwright Post Number 65 of the American Legion, which is at the present time depleted.

Buckeye Brevities Gathered By I. N. S.

ATHENS, May 25.—Congressman I. M. Foster, of the Tenth district, a local resident, is showing marked favoritism to ex-service men in naming new postmasters throughout his district. In the past few months, he named ten veterans of the world-war for postmasterships, all of them having overseas records. He, also, named seven women to postoffice positions in the district.

POMEROY, May 25.—The effect of the government dams on the Ohio river shipping is well illustrated here through the opening of the gates on Dam 28 for repair work. Now, all navigation must take the open river. As a result, some of the larger boats may not be able to run until the gates are closed and a new high stage is created. Many heavy tows of coal are going by here, bound for the steel districts of Eastern Ohio and Pittsburgh.

LOGAN, May 25.—Berry producers in this county are being organized into a marketing organization by the farm bureau. They will have one central marketing agency. No flooding of the markets will be possible at the height of the season. Prices will be maintained at a higher level thereby, it is predicted.

COOLVILLE, May 25.—Athens county farmers are showing such interest in the need of agricultural lime that the railroads are making plans to provide storage switches at several points. On these switches, lime will be stored where farmers can call for it.

ELYRIA, May 25.—Coroner M. E. Perry returned a verdict declaring that Peter Connelly, 39, died of alcoholism, rather than from a fall down a flight of stairs. The autopsy disclosed that the man's skull was not fractured. Acquaintances are raising money for burial purposes. No relatives of Connelly have been located.

BUYRUS, May 25.—The Junior High school glee club and orchestra will present their first concert at the high school tonight. Miss Barbara Kantzer is leader of the orchestra which consists of 32 pieces.

ELYRIA, May 25.—Otto Chapman, prominent LaPorte resident, was fined \$50 on the charge of driving an auto while intoxicated. Sheriff N. D. Backus claimed that, while driving on the wrong side of the street, Chapman demolished a small bridge.

BARTON, May 25.—When arraigned in the court of Justice of the Peace W. T. Roberts here, Constable James Neltzel waived a hearing and was bound to the Belmont county grand jury on the charge of extortion in connection with prohibition raids in which he is alleged to have participated. He gave bond.

BELLAIRE, May 25.—The Eastern Ohio miners' union, after a conference with Mayor John R. Wyatt, Bell and, and Mayor Howard A. Duff, Martins Ferry, announced, through President Frank Ledvinka and Vice President Robert Farmer, that the ban on operation of any mines would be lifted sufficiently to permit mining of coal for waterworks and electric plants in the two towns.

It was announced, week before last, that the Ohio miners' union had decided not to permit the mining of coal for churches, schools, hospitals and public utilities. This action constituted a departure from the custom established in other strikes. The reason assigned was that some of the mines supplying this class of consumers, also, had sold to industrial plants.

ELYRIA, May 25.—On the ground that the plaintiff made too many conflicting statements, Prosecuting Attorney Lawrence H. Webber nullified the grand larceny charge against Miss Mary Rose Boone, pretty 23-year-old Owensboro, Ky., girl, who was arrested on complaint of Nicholas Bishop, jilted fiancé, who charged that the girl stole a \$1,000 note issued to him on a loan given her brother, J. E. Boone, former grocer, of Albion, Michigan.

SHADYSIDE, May 25.—Frank Long, Bellaire, catcher for the Cambria Colliers Company team, pitched a game instead of playing behind home plate. He pitched a winning game, 13 to 0, over the Wheeling Steel & Iron team, of Wheeling, W. Va.

MARTINS FERRY, May 25.—A large delegation of local Baptists attended the annual Ohio Baptist convention, held in Fidelity Baptist church, Cleveland. Sessions began last Monday and end today.

ELYRIA, May 25.—Local police quizzed two suspects arrested at Norwalk, charged with burglarizing homes at Norwalk, Sandusky and Elyria. A quantity of silverware, stolen from the A. L. Stark home here, is

Flicker Of Eyelash Saves Man from Morgue

DETROIT, May 25.—The flicker of an eyelash changed E. M. Sarheim's destination from the morgue to a receiving hospital when Deputy Coroner Conley called for the body of the supposed suicide. Emergency measures taken by the hospital resulted in his recovery.
Sarheim slashed his throat with a razor in a fit of despondency and was reported dead. After ordering a slab the morgue prepared for the body, Conley responded to the call with a coffin. He was about to deposit Sarheim in the coffin when a slight quivering of the man's eyelash indicated that he was not dead.

OBERLIN, May 25.—The village councilmen have been informed that it will require \$33,000, instead of \$27,000, or an increase of approximately 20 per cent, to operate the village during the coming year.

SHEEP GROWER IS

(Continued from Page One)

upward impetus to the wool market and the prospect for favorable consideration for wool growers in the permanent tariff law has tended to establish a better market for wool. It is our object to see that the producer himself in the first place gets the benefit of this increased price and secondly that the manufacturer and consumer are also benefitted rather than to see the whole of the price increase go to the speculator.

"In Ohio thru our organization this can be accomplished for the first time in history. Our association owns a splendid warehouse and plant just outside the corporation of Columbus, which has a capacity of 6,000,000 pounds. This plant is the property of Ohio sheep men. We have our handling charges and overhead expenses reduced to a minimum. The big manufacturers in the east are immensely pleased with the new order of things. A factory that wants a certain grade of wool can come to our warehouse and get exactly the grade of wool it requires. Another factory, using a different grade can have its demands met in the same way. There is no guess work about it for anyone. Both the quality of the wool and the price are known in advance. This plan works, not only to the advantage to the factory, but to that of the consuming public as well."

President Palmer is of the opinion that if Ohio farmers keep posted on market conditions, which means keeping in touch with the state wool growers organization, they should get approximately 60 cents for this year's clip less the warehouse commission of 2 1/2 cents per pound and the freight charge. The immense advantage of the organization is shown in the fact that speculators are now running all over the state buying wool at around 40 cents wherever they find farmers ignorant of market conditions.

County Agent Musgrove stated that last year the organization handled thirteen cars out of this county and that this number should be practically doubled in 1922. He said the farmers locally are beginning to realize the tremendous importance of this co-operative selling movement, and that Coshocton county wool growers are too intelligent ever to go back to the old hit-and-miss methods of disposing of their crops and livestock.

CRITICS OF FLAPPER HANDED HARD JOLT BY DOCTOR BAKER

NEW YORK, May 25.—"Flappers of 1922, despite their rumored jazzy existence, will make the best mothers we have known for many generations," Dr. Josephine Baker, head of New York City's children's bureau declared today to the International News Service.

Furthermore, she said she was glad to make a defense of the modern girl in face of the many unkind and unreasonable criticisms levelled at her by press, pulpit and public in general. "The old fogies, both men and women, who never see good in anything, now have the modern girl for their favorite topic, morning, noon and night," asserted Dr. Baker indignantly.

"These same people were just as

busy fifty years ago deprecating the young woman of that period. They must have a subject to talk about. It used to be the girl who wore corsets—now it is the corsetless damsel. "Never were girls dressing so sensibly and getting such good viewpoint of life as our girls of today. They are better able, mentally and physically, to bear and raise children than their mothers."

"Let me say that I have never witnessed any but a few young women—the extremes, drinking, smoking, view a matter of manners rather morals and will not hurt their children. They only put in public where girls used to in private. Their dress is sensible and allows them to use their body as their God meant them to—untrammelled by skirts and furbelows. "Better still," continued the doctor, "they know life and all it means, that is their best protection. Their children will be wanted and welcomed. I am for the girl of today, the mother of tomorrow."

Get Money Back If Wave Proves Ripple

NEW YORK, May 25.—This is important news to women: If you undergo the financial and physical torture of getting a permanent wave and it proves to be only a ripple that is washed out in a few days time, you can get your money back at least.

Justice McTigue established this precedent here today by ordering P. Rousseau, an East 45th-st hair dresser to return \$20 to Miss Elsie Knox, who charged that Rousseau's permanent wave lasted only a few days.

PARIS, May 25.—Major W. T. Blake, who is enroute around the world in an airplane flight from England, delayed his departure from Paris today to make further adjustments of his machine. He said he hoped to hop off for Turin late in the afternoon or Friday morning at the latest.

OLDFIELD PREDICTS AMERICAN DRIVER WILL WIN RACE

By Barney Oldfield, world's master driver. Written expressly for The International News Service. INDIANAPOLIS, May 25—Thursday afternoon racing drivers who are to compete in the running of the tenth annual international sweepstakes here May 30, will begin qualifying their cars. To become eligible to start in the big race, which has a prize list aggregating \$100,000, each car must show a speed for ten consecutive miles of more than 80 miles an hour and 100 to 1200 interest centers in the qualifications trials as positions result therefrom.

Officials in charge of the race say that twenty of the 32 drivers entered will make efforts to qualify Thursday, because first row positions will be given such drivers. So far sufficient speed has been shown in practice trials to indicate that every car entered will be able to go the ten required miles at the essential speed. The cars entered represent America, France and England, the but one is from the British Isles. France has three representatives. All others are American.

I have been in Indianapolis two weeks watching the boys in their practice work, helping them with advice now and then and generally studying the conditions of the race. As a result it strikes me that the struggle this year will be the hardest in the history of the track.

The qualification trials will throw much additional light upon the race prospects but I am predicting that America will have another victory to her credit when the race is run. With drivers like Ralph De Palma,

SUCCEEDS WHERE DOCTORS FAIL

Lydia E. Pinkham's Vegetable Compound Often Does That.—Read Mrs. Miner's Testimony

Churubusco, N. Y.—"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about your Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound for female troubles and backache. It is a great help in carrying a child, as I have noticed a difference when I didn't take it. I thank you for this medicine and if I ever come to this point again I do not want to be without the Vegetable Compound. I give you permission to publish this letter so that all women can take my advice."—Mrs. FRED MINER, Box 102, Churubusco, N. Y.

It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but feel no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner.

That's the truth of the matter. If you are suffering from any of the troubles women have, you ought to try this medicine. It can be taken in safety by young or old, as it contains no harmful drugs.

Tommy Milton, Jimmy Murphy, Ralph Mulford, Roscoe Sables, Cliff Durant, Ira Vail, Leon Duray and other expert pilots tooling American cars which have been built especially for this track, I am unable to see a victory for the foreigners. France has some fast cars and they will be well handled by Jules Goux, Eddie Iearne and Howly Wilcox but the boys with the American cars should out do them.

Thousands will see the trials tomorrow which are almost as interesting as the race itself.

M'CUMBER DEMANDS ACTION ON BONUS

WASHINGTON, May 25—Senator McCumber, of North Dakota, chairman of the senate finance committee, went to bat today on the soldier's bonus with other Republican members of the committee and demanded that there be no further delay in disposing of it.

McCumber announced subsequently that he would call the full Republican and Democratic membership of the committee together before the week end with a proposal to report a soldier's bonus bill to the senate.

Finally Peterson's Ointment was recommended to me and by its use the sore was entirely healed. Thankfully yours, William Hulse, West Park, Ohio, care P. G. Reitz, Box 199.

SEN. WATSON LAUDS ADMINISTRATION AND PREDICTS BONUS LAW

INDIANAPOLIS, May 25—In what was generally said to be a keynote speech before the state Republican convention here today, Senator Watson, Republican, of Indiana, declared that the Republican candidates would stand four square on the record of the Harding administration and predicted the passage of a soldiers' bonus bill at this session of congress.

Since Harding became president, Watson said, there had been no thought of "surrendering the rights, interests and ideals of this nation to any scheme of alien super-sovereignty anywhere in the world."

"There has been no intention," he declared, "of dragging this republic into the league of nations. On the other hand every utterance of the president has shown him to be diametrically opposed to any such scheme."

"The armament conference was the largest step toward international peace with justice the world has known in all its history. The Genoa conference was manifestly not an economic, but a political conference."

Senator Watson expressed the belief that the soldier bonus bill, already passed by the house of representatives, would find its way thru the senate and be enacted into law before the close of the present session of congress.

"I cannot now say just what the provisions of this act will be," Watson said, "because they are yet the subject of consideration by the president and members of the finance committee. But I am quite sure that they will involve no additional taxation and that finally they will be paid by the use of the bonds of our debtor nations."

"The difficulty with regard to the enactment of bonus legislation is quite apparent to all. Congress is most determined to reduce expenses to the lowest limit and yet, on the other

hand, every member of that body is anxious to please the soldier and within the limits of possibility, equalize his pay during the period of his service with that of his brother who remained at home and received inflated wages.

"If our treasury were full and overflowing, no questions would be asked, because there would be no problem presented, but, with the necessity for reduced taxation, if business is to be resumed and with the determination to run the government on business principles whatever else happens, the question presented by the bonus has been one of the most difficult to answer. I feel sure that, notwithstanding the perplexing difficulties surrounding the entire question, a measure will be passed and when understood it will meet with the approval of the great majority of the people, including the beneficiaries of the legislation."

ITALY CONCLUDES A RUSSIAN TREATY SIGNING'S DELAYED

ROME, May 25 — Representatives of Italy and Soviet Russia today came to an agreement on a trade treaty, but at the last minute, the signing of the pact was delayed.

The delay was taken to enable the Russians to ask the Moscow government for formal approval of certain concessions for Italian ships. The decision to postpone signing the treaty was made after announcement was made that the agreement had been signed.

George Tchitcherine, head of the Russian delegation in the Genoa conference and commissioner for foreign affairs in the Soviet government, came to Rome especially to sign the document. He will go to Naples for a rest before leaving for Moscow.

CHEMICAL WARFARE METHODS STUDIED DESPITE TREATY

WASHINGTON, May 25—Since the treaty prohibiting the use of poison gas was signed at the arms conference no less than seven countries have sought information from the United States concerning methods of chemical warfare, it was learned at the war department today.

One of these nations, Great Britain is a party to the treaty condemning chemical warfare. The others are not and, according to officials have given every indication that they have no intention of subscribing to it. British officers who have recently completed a study of the army chemical warfare plant at Edgewood Arsenal, Md., made no secret of the intention of the British army to continue its experimentation with poison gas.

Thus while the United States has reduced funds available for the development of chemical warfare from \$2,500,000 to \$500,000 war department officials point out, practically every other power of any consequence is pushing research and development at top speed.

"Our information is that other nations are sparing no expense or effort in their experiments with chemical warfare gases and protective devices," said Brig. Gen. Amos A. Fries, chief of the chemical warfare service of the army.

"Irrespective of treaties, no country can afford to give up such development and research work as will enable them to discover what gases are capable of being used, in what quantities and how economically they can be produced in warfare, and what protective measures such as masks and clothing can be devised against them. At the same time it should be prepared to use similar methods in case of attack from an enemy not a party to the treaty or refusing to adhere to it."

CHARLES TOWN, W. DETECTIVES SAY WARD'S STORY OF FIGHT IS FALSE

NEW YORK, May 25—The Ward mystery was deepened today by a mass of conflicting data collected by investigators in and near White Plains.

These investigators are finding the probing of a case that had grown "cold" a difficult and baffling task. But they announce that the story of

Walter S. Ward, millionaire baker, that he fought a desperate battle with the blackmailers, killing one at a spot near Kensico reservoir cannot be proved by independent inquiries.

Memorial Planned For Doctor Who Gave Life In Scientific Research

ST. LOUIS, Mo., May 25 — Physicians here are considering establishment of a permanent memorial to Dr. Heber Roberts, of Belleville, Ill., who died from X-ray burns sustained during experiments with radioactive substances.

Dr. Roberts began experimenting with X-ray twenty years ago and continued his researches, although the probing of a case that had grown "cold" a difficult and baffling task. But they announce that the story of

before his demise he realized he could not survive the ravages done to his system by the burns.

Summoning his physician friends, he submitted to them a diagnosis of his own case. This was after he had visited sanitariums at Baltimore and Washington and had been treated according to his own formula for relief of such cases.

Recognized as an authority in X-ray treatment, Dr. Roberts determined to take charge of his own cure. But the malignant burns had spread too far, and despite applications of radium, of which he possessed a large store, he could not stop the spread of the deadly toxins to his chest.

Post-mortem examination of the body confirmed the specialist's diagnosis of his own case.

Colored Mail Carrier Arrested On Charge Of Disturbing Girls

SANDUSKY, May 25 — Charles Alexander, 29, colored, a city mail carrier, was arrested early today by police charged with frightening girls on outskirts streets late last night. The arrest was made after he had been identified by Etta Mitchell, and Doris Rhodes, two of the girls. Marian Epling, a third girl, became hysterical when, she alleges, Alexander followed her, and is in a serious condition today. Alexander is locked up in the police station pending a hearing.

Anthracite Strike Settlement Looms

NEW YORK, May 25.—If the au-

thracite miners representatives will name a date the operators are willing to meet with them to resume negotiations looking to ending the strike, it was asserted here today by a spokesman for the operators' group. The operators on May 18 refused categorically the nineteen demands made by miners. The operators, however are still hopeful, their spokesman said, that "the miners will make some proposition that will enable us to get together."

Bulgaria Quiet

WASHINGTON, May 25.—Reports that a revolution has broken out in Bulgaria were flatly denied in a dispatch from Charles Wilson, American minister at Sofia, received by the department. The city is quiet and the only untoward incident that had occurred the past week was the assassination of one man which, however, had no political significance whatever, Wilson said.

League standing. The score was 13 to 8.

The game was a bit and run affair. The curves offered by W. Unger, for the K. C.'s were hammered to all corners of the lot. The K. of C. management took Unger from the mound and replaced him by young Rodman, who held the hard hitting Moosers to two hits.

The K. of C.'s had a bad inning in the fourth and so the Moose came home with six runs. The Moose made four runs in the first inning and another quartet of them in the second frame.

Fouch and Wilden were on the mound for the Moose.

The Knights of Pythias and the Moose lodge team, will battle for supremacy on Friday evening at Red Sea park. Both are leading the league.

This is next week's Fraternal League schedule of games:

Monday, K. of C.'s and Knights of Pythias.

Wednesday, Eagles and Red Men.

Thursday, Moose and Elks.

No Fraternal League game on Decoration Day.

COSHOCTON SHOE TOSSERS WIN AT DRESDEN 287-223

The Coshocton fire department horseshoe team of six men defeated the Dresden tossers at Dresden Wednesday evening by a total score of 287 to 223.

The Coshocton tossers made 77 ringers and the Dresden outfit, 58.

The game was played at 100 points to the stake.

"Doc" Abbott made 14 ringers out of 65 points; Almack, 7 ringers out of 41 points; Campbell, 11 out of 31; Crawford, 14 out of 46 points; Jennings, 17 out of 53 points; and Fisher, 14 out of 51 points. Dresden has a fast team. The Muskingum-co tossers are planning on giving the locals a return match, coming to this city.

The Coshocton Horseshoe Club's pitching court is located on Ash-st. This team is managed by J. Duling, 620 Ash-st. Mr. Duling's telephone number is 625. Call him for games. He will probably occupy a berth in the Coshocton County Horseshoe League.

Sport Chatter

The Cards dropped their fourth straight to the Braves, who mauled four St. Louis pitchers all over the premises. O'Schager was as wild as a week's growth, but refused to be trifled with in the pinches.

With Tris Speaker confined to his room with a heavy cold, the Indians squandered a ball game to the Red Sox. Slow thinking by the Indians inflied was a decided factor. "Rip" Collins was profligate with passes, issuing seven in all, but was effective at critical moments.

Once again a home-run from the bat of a pinch hitter upset the Athletics. This time the big punch was

OLDFIELD DRAWS CURTAIN SHOWING DURANT'S HOBBY

By BARNEY OLDFIELD.

INDIANAPOLIS, May 25.—Zipp goes another hundred thousand dollars.

This expresses the effort of Clifford Durant, millionaire in his own name, and one of the well known multi-millionaires, in trying to win the Indianapolis 500 mile race next week.

as ready for the long grind here as it is possible to make a car with unlimited money and time to back up brains and engineering talent.

I've watched young Durant drive many a race and I believe his chances better this year than ever before. I was with Durant and Harry Miller when the car was being built and had something to say about it at various times. I watched it in trials and actual competition and I believe the man who has Durant will bring home the bacon this year. It looks as if Cliff's hundred thousand has been spent in such a manner as to make possible the attainment of his ambition. But win or lose Cliff will have to be content with a hundred thousand to a awful lot of money to spend trying to win one race.

Young Durant timed speed his several years ago and has tried three times to win the great motor class so far he has failed and his automobiles have cost him so far \$200,000. This year he has outdone all previous efforts and his bill, win or lose, will be a cool hundred thousand dollars. He says he will count the cost small if he can win. Durant has the nerve and ability to whip speed out of any car, but ill luck has hovered in his path heretofore. He had Harry Miller, the Los Angeles motor builder go the absolute limit in putting speed in a motor for him. Money was lavished in experiments for weeks, but the result satisfied Cliff that his efforts have not been in vain. He arrived here last week with a car that is the fastest thing shown on the track to date. This car averages 155 miles an hour for fifty miles in an actual race in California, and is

by the announcement that President Harding had received from President Borah, of Utah, a message pledging his government to cooperate with the United States because of the harmonious developments in their moral and material interests. President Harding replied by expressing his deep gratification and declaring that the Italian people could depend upon the hearty friendship of the United States.

SPIRIT OF PENROSE RINGS BELLS, ROCKS CHAIR, IS RUMOR

WASHINGTON, May 25.—Political opponents of the late Boies Penrose, who feared his power in the flesh, today were wondering whether the Pennsylvania has returned from the Valhalla of statesmen.

Strange ringing of door bells and movements of his favorite rocking chair in his former apartment are attested by servants in the hotel and by the new occupant. No message has as yet been received from Penrose but believes in the existence of a spirit world say Penrose is trying to lift the veil of death. Gossip on the mysteries in his former apartment, reaching even to senate cloak-rooms, have brought a division of opinions. Four times a strange incident occurring in the former Penrose apartment led those present to believe that the spirit of Penrose had returned to the material world.

On the first occasion, the apartment house bell rang three times with the vigor as used by Penrose in summoning servants to the door it was declared. An occupant, going to the door, said he found the hall empty and then was amazed to see the "push button" indented and hear the bell ringing anew as the some unseen hand were pressing the signal.

A few days later "Penrose's favorite rocking-chair" which the statesman had made especially to suit his fancy, began rocking back as tho the great Penrose was lounging in it. The servant fled. The third strange event came at night about the hour that Penrose usually returned from his senate office. While a number of persons were seated in the apartment a newspaper lying on a table in full view, suddenly was removed by an unseen hand to the Penrose rocking-chair, slowly rocked, they said, after a brief interim the occupants went out one night and on their return positions of all the furniture in the room had been changed. A complaint to the hotel office revealed that no servant had entered the room, it was said. An official who began an investigation found that the new positions of the furniture were identical to the manner in which Penrose had arranged it during his life. The last event was the only one which those who learned of the strange events were able to explain. A faithful servant of Penrose, angered at the change, had replaced each chair and table in the exact spot where it was when Penrose was alive.

NEWCOMERS CONTRACTS FOR TWO CHAUTAUQUAS SETTLEMENT IS REACHED

It was understood Thursday in Newcomerstown that the Radcliff chautauqua people will have the field in Newcomerstown this season in stead of the Community system.

Both the Radcliff and the Community systems claimed contracts

for appearance in Newcomerstown this summer and as a result a mix-up developed between the two factions. The matter has been amicably settled, it was learned Thursday.

Just how it came about that the two contracts were signed for this summer no one would explain, and the preparations for a double attraction came as a surprise to the various guarantors, who viewed with alarm the probability of a big deficit to be made up. All have agreed that while a chautauqua is a benefit to the community there, a double program could not be put thru except at a financial loss.

Mr. Detrick, representing the Community system, made a special trip to Newcomerstown last week to seek a settlement of the matter, and agreed to withdraw the claims for this year in consideration of a contract of 1923.

One man was found dead in the automobile in which the bandits made their escape. The other man was captured in an attempt to escape, a short distance from where the car was overhauled. Two others were caught on the railroad track between Stratford and Milford by officers who pursued the bandits.

DURAND OPENS HIS CAMPAIGN ON BEER AND WINE PLATFORM

Advocating the revenue on "beer and light wines" as the solution of Ohio's tax problem, C. Homer Durand, candidate for the Republican gubernatorial nomination, outlined his platform here Wednesday evening in a spirited address before the Trades & Labor council.

It was the initial speech of Durand's campaign for the nomination. From now on he will be actively engaged in the contest. So far he is the only candidate on any ticket, to declare himself in favor of wines and beer.

He was accompanied at the Labor Hall Wednesday evening by his manager, R. A. Mack of Gallipolis. According to announcement made by Mack, business headquarters for Durand's campaign, will be established in Columbus by June 1, and the heaviest end of the fight will be handled from there.

Durand was invited to speak before the labor men from the standpoint of enlightenment. The labor council will not endorse any candidate for any office, according to the announcement made Thursday, but it individual locals wish to pledge their support they may do so. As many candidates as it is possible to engage, will be asked to outline their platforms before the labor men.

Durand, in his speech Wednesday evening, vigorously denied that he ever opposed the Old Age pension. He explained that it was the state income tax, with which it had been proposed to finance the pension, that he disapproved.

After denouncing in vehement terms the idea of a state constabulary in Ohio, and giving vivid descriptions of such armed forces in other states, Durand dramatically declared that the enforcement of law and order by such methods to be more appropriate under a black flag than under the Stars and Stripes.

"Malleously imposed red tape" in the Workmen's Compensation Bureau at Columbus, and the pardoning of criminals in payment of political debts also came in for their share of condemnation by Durand.

R. A. Mack, Durand's manager, in an interview granted just before the meeting in Labor Hall praised Rupert Beetham, another candidate for the Republican gubernatorial nomination for his courage in declaring himself as a "dry" candidate.

"When Carmi A. Thompson, the white house candidate, says the wet and dry question is a dead issue, he shows conclusively that his hand is not on the pulse of the American people," Mack declared.

He accused Thompson and Harvey C. Smith of attempting to dodge the light wine and beer issue in the hope of securing support from both sides.

"We will carry Durand's platform into the rural districts as well as the cities," Mack said. "His light wine and beer proposal is sure to take well with the farmers, especially from the standpoint of taxes. Then, the farmers are thoroughly disgusted with the rampant violation of the prohibition laws. They see that it is breeding contempt for all other laws, and lowering the moral standing of every community."

"An effective regulation on the sale of liquors is desired all over the country. Prohibition has failed. By boosting Durand's platform it will be possible to bring about a regulated sale of light wines and beer, which will displace the present illegal traffic in poison intoxicants," Mack declared in closing.

Mack accompanied Durand to Columbus Thursday, where plans for the establishment of political headquarters will be made.

FIVE ASPHYXIATED IN SEWER POCKET

MILWAUKEE, May 25.—Five men were killed and two others seriously injured when they were trapped in a gas "pocket" in a sewer here Tuesday. The dead are three firemen and two city employees. Only one of them, Matthias H. Wanbach, has been identified.

A laborer first went down into the sewer, which is ninety feet below the street level. He did not return. A second laborer went down to investigate. He did not return. The fire department was then called. Three firemen descended into the sewer but failed to come up. A general alarm was given and a rescuing squad, wearing gas helmets went down after the missing men. They brot up the five bodies. Two of the rescuers were overcome.
